Next Tuesday morning approximately 100 members of the junior class will file into the high school auditorium to take the National

Merit Scholarship Examination. In past years the test was given in the senior year. The change to the junior year was made so that the students could use the test scores as a guide in selecting their academic program of the senior year. Five individual scores will be reported; knowledge of words, ability

in mathematics and quantitative thinking, ability to read in the social sciences and also in the natural sciences, and knowledge of English

The National Merit Scholarship Program is a nationwide search for students who demonstrate extraordinary ability to benefit from a college education. Four-year college scholarships are awarded to the winners depending on financial need. The winners are selected on the basis of aptitude for college work, as shown by scores of nationwide tests of educational development, secondary school achievement, character, and qualities of leadership.

The National Merit Scholarship Corporation is an independent comprofit organization established in 1955 to conduct the examinations of the program. About \$12 million in Merit Scholarships has been awarded in the first three years of the competition. Merit Scholarships are being sponsored by 80 business and industrial organizations, foundations, professional groups, individuals, and NMSC itelf.

Last year, Ruth Albright, a JHS student, was a winner of one of he scholarships. She is now attending Macalester College in St. Paul,

**New Shipment!** History making MITEY-DRYE by MODELLA

> your baby can SLEEP and AWAKEN with his ENTIRE body dry

each 1.00

Mitey-Drye is used to gether with regular diapers-does not replace them. One size fits any diaper.

All you do is place Mitey-Drye in diaper that Mitey-Drye will be next to skin when pinned together with diaper.

Mitey-Drye is a new kind of long-lasting, washable diaper liner which works, like magic, to keep baby dry . . . without constant changings. It's the wonderful new way to protect baby from cold, wet, clammy diapers — which cause diaper rash, redness, irritation to his tender skin! Made of soft fabric treated with Expelthal - Mitey-Drye lets wetness pass through to diapers, and keeps it there. Then Mitey-Drye dries within 15 minutes after wetting. This same procedure continues all night long . . or whenever baby wears Mitey-Dry\*. So baby's body is bone dry within minutes—every time he wets! Can be worn over and over again.

## SLEEPY-DRYE

cotton-knit water-repellent diaper cover is the perfect companion to Mitey-Dryé. Prevents wet nighties and beds and unlike hot rubber or plastic, Sleepy-Drye lets cool air circulate.

Harry Graysons

By HARRY GRAYSON NEA Sports Editor

NEW YORK-(NEA)-The jury is still out, of course, but early ndications are that the Tigers' two noble experiments will work out beyond even the greatest expectations.

This would mean that Billy Martin can make all the plays at shortstop and Harvey Kuenn, freed of fielding pressure there, has regained the batting touch as a trim center fielder. It was these switches that made Detroit the most interesting club in training.

And if they stand up, the Martin-Kuenn combination will be pounds more formidable than the one that trotted out Kuenn and Bill Tuttle, who did not hit enough to play the outfield with a con

It will be just as well for the American League if Martin and Kuenn keep moving at their new posts, for baseball people are already alarmed about not having anything in the way of competition for the Yankees. Judging by the early pace, the Tigers have the best chance of supplying it.

Other outfits have tried to beat the Yankees with ex-Yankees without success save for the season in which Joe Gordon second based the Indians down in front in the record-breaking attendance year of 1948. Gordon was a front-line Yankee, you see. So was Martin and the Detroit owners can thank the Copacabana caper which put Billy the Kid in George Welss' doghouse

Martin took charge of the Detroit infield-and club, for that matter. The super-aggressive young man from the wrong side of the Oakland tracks immediately became Jack Tighe's "other manager." just as he was for Casey Stengel. He was the hardest worker in camp, fielding balls hit in the hole and coming in for slow grounders by the hour. As Tighe points out, he has Tigers run-

Martin never has had to be fired up, but possesses added incentive in what he calls the bum rap which sent him to Kansas City. To him, the deal which put him in Detroit flannel was like a reprieve, for it

Kuenn wasn't nifty enough laterally to stand out as a shortstop and when his hitting fell off last summer the holes began to show. His straight away speed is considerably more than adequate, however, and with nothing more than fly balls to pursue and time to concentrate on his sound swing, the Wisconsin alumnus headed for the Tigers' first 1958 invasion of Yankee Stadium

Jack Tighe, the most concerned, already figures that Martin and Kuenn have it made. His principal concern now is secondary pitching beyond Jim Bunning, Billy Hoeft, Frank Lary and Paul Foytack.

A pretty substantial body of scientific and other opinion supports the idea that we adults, particularly in our roles as parents, must bear heavy responsibility for youthful misbehavior.

But this notion can be carried too far, and often is. Many other factors are involved. Great economic, social and political forces mold us all with impersonal pressure.

It isn't enough to say, as is frequently said, that so many delinquents come from "broken homes."

The really big question is: Who and what break the home?

Nor can the youngsters themselves escape all responsibility simply because the adults aren't measuring up or are being engulfed by forces they don't understand.

There is a shocking number of delinquents from good, unbroken homes. Conversely, countless youngsters from shattered families never join a gang or commit the smallest misdemeanor.

Obviously, individual character and

IF CANCER HAD BEEN CONQUERED ONLY A DOZEN YEARS AGO

- not have died of cancer.
- ilies would not have died of cancer.
- ... more than 35,000 children would not have died of cancer.

This Sunday will be CANCER CRUSADE SUNDAY.
Your neighbor, a Cancer Society volunteer, will
ring your doorbell between 1 P. M. and 5 P. M.

Her friendly visit gives you an opportunity to join the nationwide fight against cancer. This is your fight. It is everybody's fight. On its outcome may depend the health, happiness, and wellbeing of YOUR family.

When you make your contribution, remember that your dollars buy cancer research, education, and service, both in your community and on a nation-wide basis. They help to train young scientists for careers in cancer research; to investigate and test proported new cancer cures, treatments, and blood tests, and in the development of drugs which may eventually control the disease.

Here, in Morgan County, we have a tremendous stake in this battle. Be ready for the CANCER CRUSADE.

- 1. Plan to be at home Sunday afternoon between 1 P. M. and 5 P. M.
- 2. Make a Cancer Crusade contribution which truly represents your entire family with a check and a check-up.
- 3. Put out the welcome mat for your Cancer Crusade volunteer, letting her know that you appreciate her efforts to help cancer patients everywhere.

UNEASY BORDER-Britain is rushing troops into her colony and protectorate of Aden in an effort to head off a new border conflict with Yemen (see shaded area on Newsmap). Yemen last month federated with President Gamal Abdel Nasser's United Arab Republic. Reports of Russian arms pouring into Yemen and an Egyptian-backed plot to incite Aden tribesmen into an uprising have alarmed British officials. The protectorate of Aden covers about 112,000 square miles and is divided into some 26 petty Arab states with a total population of some 800,000. Aden is important to Britain as a base from which to
